ABOUT US

“At LES Energy Services Limited, our vision is to be the recognized Performance Leader in our industry, dominate our chosen sectors and disciplines and hold a market position ahead of our competitors in these areas.Being a Performance Leader, our Mission is to achieve Operational Excellence, Customer Satisfaction and Superior Financial Performance”

PREYEBEREZI

CHIEFEXECUTIVEOFFICER

LES Energy Services Limited is a 100% Indigenous Nigerian Company founded in 2007 and has its corporate office in Lagos, a Maintenance/Training Centre, as well as several Fabrication Yards in Port Harcourt and Lagos, Nigeria

We specialize in the provision of Engineering, Procurement, Construction, Onshore and Offshore Installation, Operations and Maintenance of Oil and Gas Facilities, Equipment Supply and Maintenance Services, Integrated Marine and Subsea Services and Training.

Our processes are run in line with international best practises and we have been certified to

ISO 9001:2015 (QMS) **ISO 45001:2018 (OHSMS)** **ISO 14001:2015 (EMS)**

CORE VALUES

QUALITY

We promote the highest standards of customer care and the client is at the centre of all of our business operations.

RELATIONSHIP

We are committed to developing lasting relationships with clients, employees, our partners, contractors, sub-contractors and our communities.

INTEGRITY

We demonstrate utmost integrity and only operate in a transparent and honest way with our clients, personnel and other stakeholders.

COMMITMENT

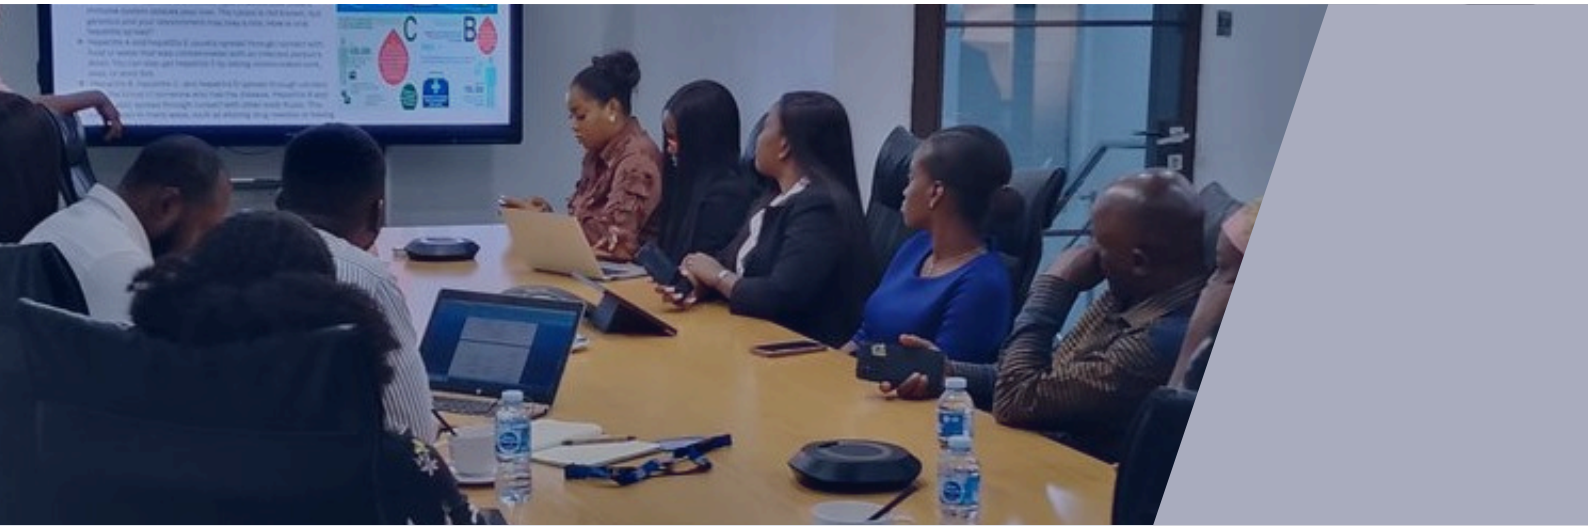

We are committed and are focused on the needs of all our customers (clients and employees)

ETHICS

We operate ethically and demand the highest standards in our actions

SAFETY

Maintaining a consistent operational approach, our organization ensures safe and healthy work environments that protect against work-related illnesses, prevent pollution, and promote sustainable management of natural resources.

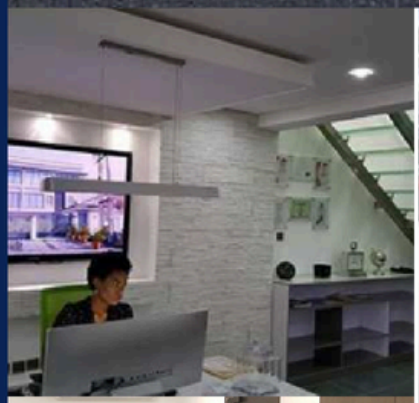

HEAD OFFICE

LAGOS, NIGERIA

CORPORTATE OFFICE

Plot 32 Block 100, Furo Ezimora Street, Lekki Scheme 1, Lekki Lagos, Nigeria.

Our Corporate Head office situated in Lekki, Lagos-Nigeria is fully owned by LES Energy Services and operations from here commenced since June 2015.

FABRICATION YARD

PORT-HARCCOURT, NIGERIA

FABRICATION YARD

180 NTA. Road, Mgbuoba,
Port-Harcourt, Rivers State, Nigeria

Our Fabrication Yard is fully equipped with Indoor and Outdoor Fabrication/Welding Shops, Blasting and Painting Chambers, Storage, Porta Cabins and more than 1500 sqm of Office Space.

1. Administrative Offices and Training Classrooms
2. Warehouse and Training Facility
3. Engineering Secondary Office
4. Drager Sales, Technical Support & Calibration Office
5. Reception
6. Cafeteria
7. Valve / Well Head / Pump Maintenance Workshop
8. Future expansion & development area

LES Energy Services Limited

TOP MANAGEMENT & LEADERSHIP

Our leadership team is more than a steering committee, they are the architects of our vision, the guardians of our values and the engine behind our performance. United by a deep-industry insight and a shared commitment to excellence, our top management brings strategic clarity, operational discipline and ethical integrity to every project and partnership.

As ambassadors of our core values, they foster an environment where innovation thrives, where our people are empowered and where our clients' ambitions are met with concrete results. Together, they chart the course for LES Energy's mission: dominating our chosen disciplines and staying ahead of the competition.

OUR SERVICES

QUALITY POLICY

Our strong commitment to quality is driven by a deliberate focus on risk-based thinking at all levels of the organization. We engage in proactive planning, identify relevant issues early, and respond with informed, strategic actions. Our goal is to consistently meet and where possible, exceed the expectations of customers, regulators, employees, suppliers, and other key stakeholders. This structured approach supports continual improvement, operational resilience, and long-term success

HEALTH, SAFETY AND ENVIROMENT POLICY

LES Energy Services holds a non-negotiable, long-term commitment to protecting both people and the environment. We are dedicated to preventing injury and ill health through proactive safety measures and a strong culture of accountability. At the same time, we work to protect the environment by preventing pollution, reducing the consumption of natural resources, and minimizing waste. These responsibilities are central to how we operate and reflect our commitment to sustainable, responsible business practices.

SERVICES WE OFFER INCLUDE:

- Engineering
- Procurement
- Onshore/Offshore Installation
- Construction
- Pre-commission & Commissioning
- Operation & Maintenance
- Marine & Subsea Services
- Valve & Safety Systems Maintenance
- Training

ENGINEERING

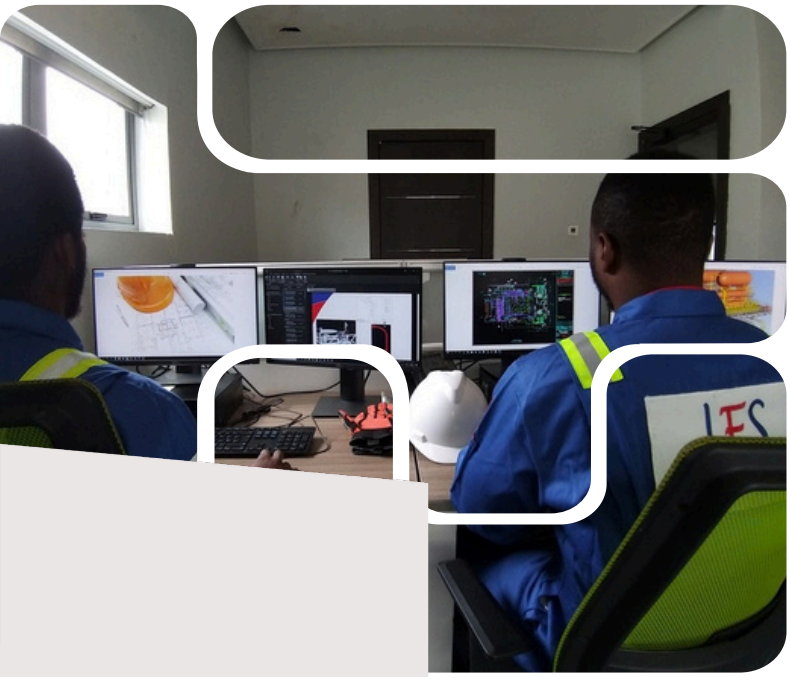

Our expertise and proficiency in the engineering design process empowers us to develop and deliver comprehensive, end-to-end solutions tailored to address even the most complex and challenging problems through a deep understanding of technical requirements, innovative thinking, and a systematic approach, we consistently transform intricate concepts into practical, effective outcomes.

OUR SERVICES INCLUDE:

- Concept Selection
- Frontend Engineering Design - F.E.E.D
- Detailed Engineering Design - D.E.D
- Follow On Engineering

EXECUTION

Given the engineer's critical responsibility to ensure that the project is constructed or implemented in accordance with the approved design, it is standard practice to have engineering oversight during the execution phase. This oversight helps verify that the work aligns with design specifications, regulatory requirements, and quality standards, while also addressing any unforeseen issues that may arise during implementation.

PROCUREMENT

We use leading technology to provide first class procurement services Affiliated to globally recognized Original Equipment Manufacturers (OEMs) such as Dräger, Cortez Subsea, Knowsley SK, TVC, MRC Global, Bauer Kompressren and Lonestar Fasteners. Our Services cuts across the Oil and Gas Industry, Petrochemical, Energy, Marine, FMCGs and other Sectors.

OUR SERVICES INCLUDE:

- Sourcing
- Ordering
- Expediting
- Inspection
- Consolidation
- Marking
- Onward Shipping

At LES Energy, we are committed to creating lasting value for our customers by ensuring reliability and quality in every aspect of our supply. We understand that dependable procurement is essential especially in the Oil and Gas industry, where delays, poor-quality materials, or unexpected cost increases can directly impact productivity, profitability, and safety.

When inputs are below standard or arrive late, operations suffer. In critical sectors like ours, such issues don't just affect performance they can pose serious safety risks. That's why we prioritize trusted partnerships, strict quality control, and on-time delivery. Our goal is to be more than just a supplier we aim to be a reliable partner who supports the efficiency, safety, and long- term success of our clients.

CONSTRUCTION

Our multidisciplinary team of engineers, project managers, and technical specialists delivers construction solutions across onshore, offshore, marine, and industrial facilities within the energy sector. From concept development through execution, we focus on safe, efficient, and cost-effective project delivery that meets client objectives and international standards.

By integrating engineering, procurement, fabrication, logistics, and construction expertise, we optimize manpower, equipment, materials, and project schedules to maximize value, reduce risk, and ensure successful project outcomes.

Our established supply chain network and project execution capabilities enable us to deliver quality solutions while maintaining schedule certainty, cost control, and operational excellence.

- Project Planning & Scheduling
- Construction Management
- Engineering Support & Design Coordination
- Procurement & Logistics Management
- Pipeline Construction & Maintenance
- Quality assurance/Quality control (QA/QC)
- Structural Steel & Subsea Structures
- Quality Assurance & Quality Control (QA/QC)
- Cost Estimation & Project Controls
- Permit & Regulatory

OFFSHORE & ONSHORE

INSTALLATION

We are capable and positioned to undertake both onshore and offshore installation work across a broad spectrum. Our service offering is strong and aligns well with what upstream, midstream, and downstream oil & gas clients often need in Nigeria and its region.

OUR OFFSHORE INSTALLATION SERVICES SCOPE INCLUDE

- SURF Installation (Subsea Umbilicals, Risers & Flowlines)
- Subsea Structures, Manifolds and Jumpers Installation
- Pipeline Installation and Tie-Ins
- Modular Processing Skid Offshore Platform Hook-Up and Commissioning with Pump and Metering Stations
- Brownfield Modifications and Asset Integrity Projects
- Offshore Mechanical, Structural and Piping Installation
- Heavy Lift and Marine Construction Operations
- Shutdowns, Turnarounds and Maintenance Campaigns
- Pre-Commissioning, Commissioning and Start-Up Support
- Decommissioning and Asset Removal

ONSHORE INSTALLATION SERVICES INCLUDE

- Oil & Gas Processing Facilities Construction
- Mechanical, Piping and Structural Installation
- Tank Farms, Terminals and Export Facilities
- Gas Compression and Gas Processing Facilities
- Brownfield Modifications and Facility Upgrades
- Plant Shutdowns and Turnarounds
- Electrical, Instrumentation and Control Installation
- Infrastructure Development and Utility Systems
- Commissioning and Start-Up Services
- Decommissioning and Asset Retirement

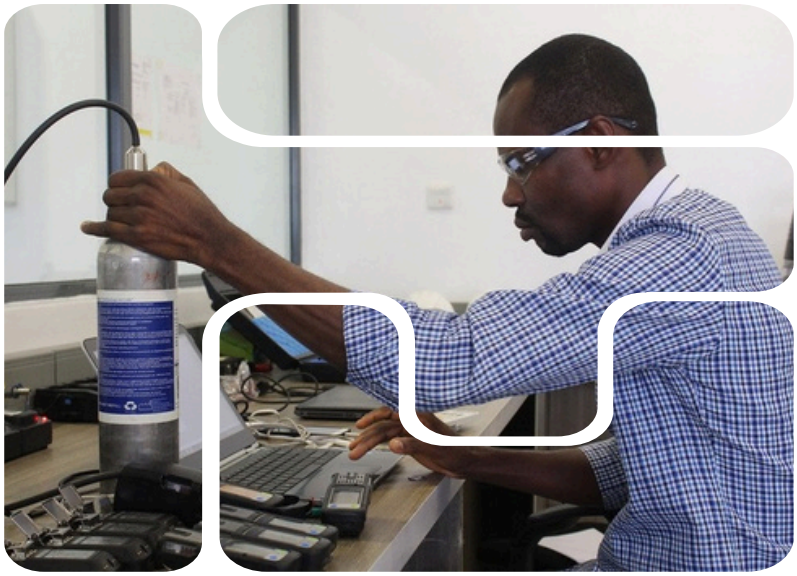

EQUIPMENT SUPPLY AND MAINTENANCE SERVICES

Our use of technologically advanced equipment, combined with a team of highly trained engineers and skilled technicians, provides us with a significant competitive advantage in the delivery of maintenance services. This edge enables us to consistently meet and exceed the expectations of our clients across a broad range of industries, including oil and gas, marine, petrochemical, and other critical sectors. By leveraging cutting-edge tools and industry expertise, we ensure that our solutions are not only efficient and reliable but also tailored to meet the unique operational demands of each client.

We take pride in our team of qualified instrument technicians who possess the requisite training, certifications, and practical experience necessary to deliver cutting-edge testing and calibration services. Equipped with modern diagnostic tools and advanced instrumentation, our technicians ensure that all procedures are carried out with precision, reliability, and in full compliance with industry standards.

Our commitment to excellence is further strengthened by our state-of-the-art facility located in Port Harcourt. Strategically positioned to serve clients within the region and beyond. This facility enables us to offer a comprehensive range of maintenance solutions tailored to meet the specific needs of industries such as oil and gas, petrochemical, marine, and manufacturing. With a focus on quality, safety, and efficiency, we remain dedicated to helping our clients minimize downtime, optimize performance, and maintain operational integrity.

- Valve maintenance and repairs
- Calibration services
- Hydro Testing
- Pumps
- Well Heads
- Christmas Trees

OPERATION AND MAINTENANCE SERVICES

LES Energy Services specializes in providing comprehensive Operation and Maintenance (O&M) services to the energy industry, with a strong focus on meeting customer goals of price, quality, schedule, and safety. With an unwavering commitment to excellence, LES Energy Services offers cost-effective solutions without compromising on quality.

Our dedicated team of professionals ensures efficient execution of O&M activities while adhering to strict schedules to minimize downtime and maximize operational productivity. Safety is our top priority, and we maintain stringent safety protocols to safeguard both personnel and assets. By leveraging our expertise, advanced technologies, and industry best practices, LES Energy Services delivers reliable O&M services that exceed customer expectations in terms of price competitiveness, exceptional quality, timely execution, and uncompromising safety standards.

- Crewing
- Technical Management
- Procurement
- Oil Pollution Control - Contingency Response Plan
- Management System (CMMS), Risk Assessment
- Surveys/Consultancy Services & Statutory Vessel Inspections by recognized authority.
- Quality Assurance- Onboard Safety Audit
- Planned & Predictive Maintenance
- Supplies of Provisions and Stores
- HSSE Plan, Coordinating and Implementation of all Health, Safety, Security and Environmental Policies, Reports/Meetings
- Asset Integrity Management
- Cost Control/ Management
- Analysis
- Catering Services
- Computer Maintenance
- IACS Classification
- Well Services
- Fuel and Bunkering Operations
- Regular and Special Laboratory

FABRICATION & WELDING

AtLES Energy ServicesLimited,weprideourselvesonourflexibleandinnovativeapproach, which allows us toofferawiderangeofFabrication,WeldingservicesandStructuralrepair solutions in Nigeria.

The skill set of our workforce and our proven track record ensures we deliver our clients requirements on time. Health, Safety and Environment are essential components of our culture

LES understands that the total company or system, not just the 'Safety Department' affects and is responsible for the safety of all employees

Our Fabrication and Structural Repair services include:

- Structural Steel Fabrication
- Process Piping & Spool Fabrication
- Modular Skid Fabrication
- Pressure Vessel & Tank Fabrication
- Specialist Welding & Cladding Service
- Brownfield Modifications & Repairs
- Shutdown & Maintenance Support
- QA/QC, NDT & Welding Engineering

MARINE & SUBSEA SERVICES

LES Energyprovidesmarinesupportservicessuchas SubseaInspection,SubseaSurveys, Pipeline Mapping, Subsea Structural Repairs, SURF Installation & Subsea Pipe, Risers, Flow-line and Umblical Installation.

We aim to become a leading provider of integrated Subsea Services providing Engineering, Procurement, Subsea Construction, Installation, Specialist Survey, Inspection, Repair and Maintenance (IRM) Services off the West African Coast

LES Energy collaborates with a network of reputable marine, subsea, engineering and technology partners to deliver safe, efficient and cost-effective offshore and subsea solutions across shallow and deep-water environments.

Through strategic alliances and access to specialized vessels, equipment, engineering expertise and subsea technologies, LES Energy is able to execute a broad range of marine and subsea projects including inspection, survey, construction, installation, repair, maintenance and decommissioning activities throughout the offshore energy sector.

VALVE MAINTENANCE

Wehelp ourclientreducetheircapitalexpenditureonvalvesbyhavingthemservices & repaired ratherthanbuyingnewvalveswhenthereisnorealneed.

LES offer the customer a completeonorOFFsitevalveservicefromconsultation to complete strip down and overhaul.

Our valve services Includes:

- [ ] Safety Relief Valve Testing overhaul and calibration
- [ ] Control valve & Actuator servicing overhaul e Testing and calibration
- [ ] Complete overhaul & testing of;
  - Gate
  - Globe
  - Check
  - Ball Needle
  - Butterfly
  - Diaphragm
  - Plug
  - Non Return valves
  - Pressure Reducing valves and Knife-edge Gate valve
- [ ] Overhaul of Petitioners. Mobile workshop facilities
- [ ] Call out repairs Planned Periodic Maintenance. Shut down Maintenance, Inspections, Surveys
- [ ] Spare Parts Management

OFFSHORE VESSEL SERVIES

LES Energy Services provide offshore accommodation, construction, installation and maintenance support through our fleet of specialized vessels, including the accommodation and construction vessel Mama Theresa and Diepreye as well as jack-up barges JUB Selake and JUB Peremobowei.

MAMA THERESA

DIEPREYE

MAMA THERESA is a DP3, 500-man capacity multipurpose offshore construction and subsea support vessel with a 400MT crane while **DIEPREYE** is a DP2, 200-man capacity multipurpose offshore construction and subsea support vessel with a 100MT crane. They are both well fitted with telescopic gangway, 2nos work class ROVs and certified helideck.

JUB SELAKE

JUB PEREMOBOWEI

JUB SELAKE and JUB PEREMOBOWEI are mobile offshore jack-up barges designed to support offshore construction, drilling, installation and maintenance operations. The unit is equipped with retractable legs that can be lowered to the seabed and mechanically jacked up, elevating the platform above the water surface. This provides a stable and secure working environment, enabling safe and efficient operations in offshore conditions

TRAINING

Trainingisan activityleadingtoskilled behavior.
This essence istheprimary philosophy behind our dedicated and tailor made training modules.

As a training company, our approach to competence development lets us identify and assist our customers to build a more efficient, safe and competent workforce.

At LES Energy, we work closely with our contracting companies, and are fully aware of their recruiting requirements and programmes.

For this reason, we ensure that courses run meet their demand for personnel, and there is the best possibility of securing a position. Successful candidates are automatically registered into our industry-leading Competence Management Programme and given access to additional training packages.

Our Training courses include:

- Emergency Response Training
- NDT Inspection Training
- Bespoke Training

CLIENT	SCOPE OF WORK	STATUS
SNEPCO	Provision of Maintenance, Engineering, and Project Support Services - Quality Management Services	IN PROGRESS
	Supply of Draeger Safety Products FCA	IN PROGRESS
	Supply Of Draeger Products - (Portable Gas Detectors, Ppe And Respiratory Protection Products, Chemical Protection Suits, Firefighting, Equipment And Training Galleries, Breathing Air Compressors)	IN PROGRESS

CLIENT	SCOPE OF WORK	STATUS
ADDAX PETROLEUM DEVELOPMENT NIGERIA LIMITED	Operation and Maintenance (O&M) services on the Adanga Complex (OML 123) comprising of the Marc Lorenceau Mobile Operations Production Unit (MOPU), Adanga production platform(ADPP), Adanga Redevelopment Platform and Booster Compressor 1 (BC-I).	COMPLETED
	Asset Integrity Inspection and Non-Destructive Testing (NDT) of APDNL Facilities in OML 123 & OML 124.	COMPLETED

PROJECTS LIST

CLIENT	SCOPEOF WORK	STATUS
ANTAN PRODUCING LIMITED	Call of Contract for Facility Maintenance Service in OML 123, 124 & 126	COMPLETED

CLIENT	SCOPE OF WORK	STATUS
GENERAL ELECTRIC	Construction Manager for the renovation for Kolo General hospital and Oloibiri Health Centre in Bayelsa State	COMPLETED

CLIENT	SCOPE OF WORK	STATUS
SHELL PETROLEUM DEVELOPMENT COMPANY NIGERIA LIMITED - SPDC	Brownfield Engineering and Maintenance Services -Provision of offshore production crew support to support the EA/OGGS offshore production asset.	COMPLETED

OUR PARTNERS

Dräger is a German company based in Lübeck which makes breathing and protection equipment, gas detection and analysis systems, and noninvasive patient monitoring technologies. Our Core products includes: Fire and Gas Detection System, Air Purifying Respirators, Diving Equipment, Breathing Equipment, and Emergency Evacuation Equipment

LoneStar is a manufacturer and stocking distributor for all sizes of SAE, ASTM and ISO fasteners including Bolts, double end, tap end and all thread fasteners in a variety of grades and alloys and coatings.

BAUER KOMPRESSOREN is devoted to the manufacture of high pressure compressors and components, such as filter systems and regeneration dryers. BAUER KOMPRESSOREN is one of the world market leaders in the high and medium pressure range

OUR PARTNERS

IPCOPLUG
OFFICIAL PARTNER

IPCO Plugs delivers reliable, high-performance pipeline isolation and testing solutions. With a focus on quality, safety, and innovation, IPCO products help ensure system integrity and efficiency across diverse industrial applications.

CORTEZ
SUBSEA

Cortez Subsea pioneers new ways to make pipelay and inspection quicker, safer and cleaner for the global energy industry.

GasCon

GasCon delivers world-class pressure vessel and cryogenic storage solutions. With a strong focus on quality, safety, and engineering excellence, GasCon designs and manufactures certified equipment that supports reliable performance and efficiency across global industrial applications.
